

JALPA DEVI

ENGINEERING PVT. LTD.

A unit of Dilip Buildcon Ltd.

DESIGN BUILD OUTLAST

WHO WE ARE

Dilip Buildcon limited is one of the largest and fastest growing Engineering, Procurement and Construction (EPC) companies in India. With over two decades of unflinching services in the world of infrastructure, we are perpetually growing and aiming for the better. Being among Central India's top contractors, we have expanded our business into a multiplicity of fields— Buildings & Factories, Transport Infrastructure, Heavy Industries, Public Infrastructure and more.

With exceptional quality and trustworthy engineering at the core of our values, we believe in developing a nation that is strong, futuristic and at par with global standards. Bringing the values of trust, honesty and commitment to the forefront, we are taking proactive steps towards the creation of the "New India"

- The largest & fastest growing infrastructure company in India
- Largest EPC employer and fleet owner in India
- Vertically integrated and Innovation-focused

TRANSFORM
THE WORLD

ABOUT JALPA DEVI ENGINEERING PVT. LTD.

Established in 2018, Jalpa Devi Engineering Private Limited is an extension of our arm to aid process of nation-building. As a company imbued with everlasting engineering solutions, we perpetually strive for excellence and durability. Located in the heart of Madhya Pradesh at Pithampur, JDEPL harbours a state-of-the-art construction and alloying facility, equipped with reservoirs in accordance with National & International Specifications as per standards IS, DIN, BS, ASTM, JIS etc.

Backed by a powerhouse of industry professionals and unparalleled technology, we deliver unmatched expertise across Technology, Engineering, Construction, Infrastructure Projects and Manufacturing.

Creating an eternally customer-centric approach and a continuous quest for world-class quality, we practice a no-bake Alpha set molding process with omega continuous sand mixers having capacity of 20 TPH & 10TPH each along with compaction tables, Shell and Cold box, core shooters, Dual track induction melting furnaces - 300kg & 2000kg two crucible each.

As a backward integration to Dilip Buildcon, Jalpa Devi serves to provide products and services that add longevity to your projects while being superior quality and economical.

OUR EXPERTISE

- Wear & Abrasion Resistant ferrous Castings
- Enhanced service life in mining and crushing
- Highly automated fabrication and machine shop

FOUNDRY

We manufacture wear parts for primary, secondary, vertical & horizontal shaft impact crushers in hi-manganese & hi-chrome steel grades like Jaw Plates, Bowl & Mantle Liners.

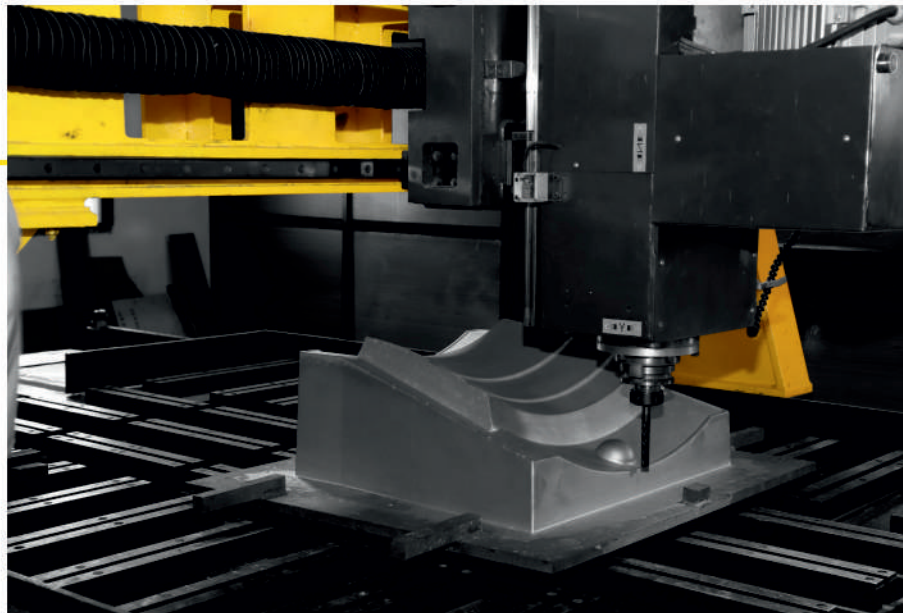

Excavator Parts like Tooth Points, Adopters, undercarriage Items, Cutting Edge, Track Links, Drag Chain Links etc. in Low Alloy Steel, Manganese Steel & Cast Steel grades.

High quality products with robust systems and services are aligned to deliver speedily and competitively. We have a proven track record of developing and delivering new products, from scratch with the shortest lead time, using latest technology-assisted reverse engineering and prototyping processes. Jalpa Devi is an ISO 9001 : 2018 certified company.

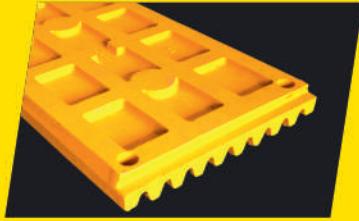

Jalpa Devi Engineering is a customer focused versatile organisation with qualified professionals committed to providing values to our customers through quality products, innovative solutions and prompt responsive services.

USP

- In house designing, simulation & methoding
- In house Pattern Manufacturing
- No bake alpha set moulding process
- Highly automated machine shop
- Automatic quenching with in 35 seconds

CRUSHER WEAR PARTS

JAW CRUSHERS

Jaw crushers are mainly used as primary crushers to produce specific aggregate size that can be transported by belt conveyors to the next crushing stages.

VERTICAL SHAFT IMPACT CRUSHERS

The principal uses will be in quarries and gravel pits to produce products for roads and asphalt, ballast, manufactured sand for concrete and aggregates for use in the construction Industry.

CONE CRUSHERS

A Cone Crusher is a compression type of machine that reduces material by squeezing or compressing the feed material between a moving piece (mantle) of steel and a stationary piece (concave) of steel.

EXCAVATION PARTS

Tooth Points, Adaptor, Side Cutter Plates & Grader Blade etc. are attached to the bucket of excavator and loader of any brand to make heavy earth moving machines.

IRRIGATION/DAM

- Rope Drum • Drum Gear • Second Gear • Pulley OD
- C.T. Wheel, OD • C.T. Gear, OD • L.T. Wheel, Od
- Rim Gear, OD

PRECAST STRUCTURES

- Anchor Cone 19 06
- Anchor Cone 19 05 & 12 06
- Anchor Cone 12 05
- Anchor Cone 22 06
- Anchor Cone 05 06

BRIDGES

- Top Plate-Pot Bearing • Piston-Pot Bearing
- Pot/Cylinder-Pot Bearing
- Top Plate-Spherical Bearing
- Pot/Cylinder-Spherical Bearing

FABRICATION

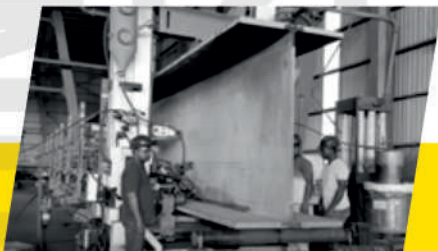

Our fabrication unit is designed keeping in mind the ever-growing need for ingenious and original structures. Using cutting-edge technology, coupled with modernistic and functional designs, we create to deliver irreplaceable engineering solutions.

We manufacture Steel Superstructures for Cable Stays, Suspension & Extra dose bridges wu to 150MT weight of each structure.

USP

- 3D designing, modelling & Simulation softwares for simulation of product & process.
- Robotic Cutting & welding lines
- CNC Drilling with Lazer sensing.
- Automatic Beam & Girder welding line with straightening capable of welding girders of 2.5 meter height.
- Controlled torquing within 5% of torque value.

I-GIRDERS

**OPEN WEB
BRIDGE GIRDERS**

**MODULAR
PONTOON**

We design simulate & manufacture UT & RT qualified heavy fabricated structures used for material handling, water ways transportation & steel superstructure for Bridges which include Launching Girders for bridge erection, Dumb Modular Pontoons, Deck Anchorages, Girder & Beams for Bridge superstructure.

WIRE PLANT

Engineering Infrastructure requires engineering and expertise in execution of projects, considering the exact demographics of different locations. Which means before starting any construction project a company needs to analyse the following criteria i.e soil, temperature, weather, geographic location, and accordingly make decisions for the machinery and material, so that a strong and viable structure can be completed.

While building roads, dams, bridges, some important elements used are Soft drawn galvanised wire, mesh structure that is Gabion boxes, Rockfall Netting, Mattress and many more, for which the wire has to go through different strengthening processes. Wire Plant at Jalpa Devi Engineering Pt Ltd has the range from 7mm to 2mm low carbon and high carbon steel with a state-of-the-art heat treatment and galvanizing process, having capacity of 50 metric tonnes per day. Knitted Wire mesh plant is used to manufacture hexagonal double twisted wire mesh structure.

Gabion is one such structure which is widely being used for slope stability and erosion protection in construction. Gabions are durable, flexible, permeable, strong, economical & Environment friendly and its sizes vary from 05 mtrs to 4 mtrs.

USP

- Robust strength and Durability
- Sustainability and cost effectiveness
- Highly Customisable
- Galvanised with exceptional quality zinc
- Convenient Transportation Process

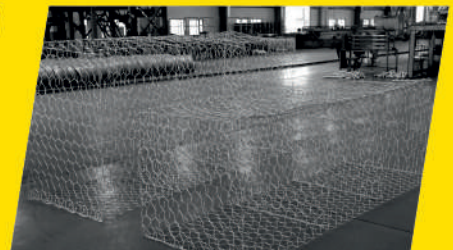

GI BUNDLE

Bundle of Galvanised wires that is soft drawn and Passivated for longevity

GALVANISED WIRE MESH

High-quality galvanised wire mesh developed in our manufacturing unit

GABION BOX

Robust and durable Gabion made with Industry-oriented standards

Certification of Registration

JALPA DEVI ENGINEERING PRIVATE LIMITED

OFFICE ADDRESS: PLOT NO.5, INSIDE GOVIND NARAYAN SINGH, GATE, CHUNNA BHATTI,
KOLAR ROAD, BHOPAL, BHOPAL, MADHYA PRADESH - 462016, INDIA
WORK ADDRESS: PLOT NO. 831-836, SECTOR -3 INDUSTRIAL AREAS, PITHAMPUR
DISTRICT - DHAR, MADHYA PRADESH - 454775, INDIA

Certify that the quality management system of the above organisation has been audited and found to be in accordance with the requirements of standard detailed below

ISO 9001:2015

For The Following Scope

THE DESIGN MANUFACTURING SUPPLY AND ERECTION COMMISSIONING OF HEAVY ENGINEERING
FABRICATION PARTS, FABRICATED TRUSSES, GIRDERS OF OPEN WEB, COMPOSITE, PLATE
GIRDER, I-GIRDER, BOW STRING GIRDER BRIDGES FOR RAILWAY, HIGHWAY, INFRA
PROJECTS & CASTINGS OF CAST IRON, SG IRON, MILD STEEL, STEEL, ALLOY
STEEL DULLY SHOT-BLASTED, HEAT-TREATED MACHINED
AND AS-CAST CONDITION

Certificate No:- QACS-A-JD-07.20.024

EA Code: 17 & 18

**This certificate is issued in accordance with the QA Certification Services Pvt. Ltd. auditing and Certification procedures and certificate shall remain valid subject to yearly surveillance audit.*

Certificate Issue Date: 27th August 2022
Date of Initial Registration: 28th September 2020
Certificate Validity: 3 Years

1st Surveillance Date: 26th August 2023
2nd Surveillance Date: 26th August 2024
*Expiry Date: 26th August 2025
Revision: 01

Note: Certificate shall be valid after surveillance, only if continuation letter by QACS is present.

To Check the certificate validity please
